A Grand Excursion to Yellowstone National Park and Other Prominent Places in the West.

On Thursday, August 8, the Union Pacific railway will run an excursion from Omaha, Neb., to Yellowstone National park and other places in the west, including Great Shoshone falls (the peer of Niagara), Ogden, Salt Lake City, Denver and over the far-famed Bow-Knot loop. One special feature of this occasion is that the Union Pacific will take its own stages (magnificent Concords) and fine stage horses along on the train, and the party will have the pleasure of staging around the different places at which stops are made,

The visit to Shoshone falls will also be of striking interest. Elegant Pull-man sleepers will be furnished for the occasion, and the trip will last twentyone days. The exceedingly low rate of \$175 has been made for this excursion, which includes railroad fare, hotels, meals, sleeping car accommodations and staging in the park as well as elsewhere. Arrange to go on this excursion --- you will never regret it.

Omaha's Bohemian Population. OMARA, August 3 .- To the Editor of THE BEE: Your editorial mention of the progress of Bonemian people in Omaha is correct, except as to numbers, which you greatly underestimate. Five or six years ago your figures might have been correct, but the increase has since kept pace with the growth of our prosperous city. At the present time there are no less than 1,200 Bohemian families, and possibly 1,500 in this city, not counting South Omaha. Why, the Bohemian assembly of Knights of Labor at one time had a membership of pacific four handset the membership of nearly four hundred; the membership of the Bohemian societies now is upwards of five hundred, and no one will pretend to say that more than one-third of the people are members of some society. I am pretty certain that there are more than 1.200 families, at least 6,000 inhabitants of Bohemian extraction in our city.

The Purchaser Badly Sold and Always Sorry For It. There is only one house in Omaha that handles the celebrated Columbus

A DIFFERENCE IN BUGGIES.

Buggy company's vehicles, while there are many who handle Columbus (Ohio) Note the distinction in the above par agraph.

Many of the cheapest vehicles, both in quality and price, are purchased by persons not familiar with the above facts.

No buggy manufactured in the United States equals the jobs turned out by the Columbus Buggy company, consequently there are many who try to imitate the name or advertise a buggy manufactured in Columbus, Ohio, as a "Columbus buggy;" they are sharp enough, how-ever, not to call it a "Columbus Buggy company's buggy." To those un-aquainted with these facts a Columbus buggy seemingly is buggy, and while the price of the Columbus buggy, and while the price of the Columbus buggy is very low, they think they have a big bargain and make a purhase, only to find inside of a week that

they have been sold, and sold badly. The pressure brought upon the Columbus Buggy company to furnish cheap and inferior work and to give it the benefit of their name and reputation, has been very heavy from many sources. but this the Columbus Buggy company have constantly refused to do, until con-sumers generally throughout the whole ength and breadth of the land know if they want an absolutely reliable vehi-cle, they must buy one manufactured by the Columbus Buggy company.
These goods are only handled in

FROST AND HARRIS.

Elegant Carriages Put Up in First-Class Style at Home, Omaha is fast becoming a manufacfacturing center. A ride over the city will astonish the average citizen at the number and extent of manufacturing establishments now in operation. Last May the new firm of Frost and Harris secured a lease upon the Pruyn building corner 22d and Izard streets, and opened one of the most complete carriage manufacturing and re-pairing shops in the city. The building is admirably designed for their pur-poses, being well lighted and roomy. Jpon the first floor may be found the salesroom, which is well stocked, an of-fice, and very completely furnished and manned wood and iron work shops. besides a stock room for carriage hardware. Upon the second floor are the painting and trimming rooms. In the trimming room are found elegant imported broadcloths, moss and bales of curled hair, materials never used in inferior work. It may be well to state right here that they will not manufacture or deal in poor work. The paint room is under the direct supervision of Mr. Harris, of the firm, who was engaged for 18 years as superintendent of the paint department of A. J. Simpson. His presence there is a guarantee of workmanship of the highest kind. His assistants are artists in their line. The other partner, Mr. Frost, is a thorough workman, having learned his trade regularly in Southampton, England, with John Wilson & Son, and been later engaged as superintendent of construction for nine years by A. J. Simpson of this city. They employ fifteen men be-sides the two partners who are actively engaged all of the time. Their stock of materials is the best that can be secured and they guanantee their workmanship. They number among their patrons some of the best citizens of Omaha, and some very nobby turnouts will soon be finished in their shop. They are prepared to manufacture to order any kind of carriage, pheaton, cart, coupe or other vehicle, and equal in workmanship and finish the very best eastern work. They also do all kinds of repairing promptly and give satisfaction. Frost & Harris have given Omana what she needed—a thoroughly first clas carrriage factory.

RELIGIOUS.

A boy preacher named Lee, of Stockton, Cal., has been committed to the lunatic asy-lum. This should be a warning to infant prodigies.

Mme. Tisza, wife of the Hungarian prime minister, has donated 12,499 florins to the orphanage fund of the Jewish Ladies' Aid association of Buda-Pesth. The seventh annual report of the Home for Aged and Infirm Israelites in St. Louis states that the total funds of the society now amounts to \$18.604. The home has 440 inmates.

The Roman Catholic church in America is at last have a truly popular prayer-book. It has been compiled by Rev. Clarence E. Woodman, one of the New York Paulist fathers, and is now issued with the approval of Cardinal Gibbons and the imprimatur of Archbishop Corrigan. There are now eighty-two medical mission

aries in China, the majority of whom are from the United States: sixteen of them are female physicians. There are large mission hospitals and dispensaries in Peking, Tient-sin, Shanghai, and Canton, and smaller ones at various other cities. The Episcopal bishop of Manchester, Dr.

Moorhouse, broke the ice of intolerance some days ago by inviting his Roman Catholic friend and neighbor, Dr. Vaughan, bishop of Saiford, to a garden party. The invitation was accepted, and nobody has so far raised the cry of "The church in danger." Cardinal Newman has returned to Bir mingham in improved health—being, in fact as active at eighty-nine as he was when he and the century were a decade younger. Though his mind is clear as ever, his hands

have forgotten their cunning. He writes only with great effort, and now the difficulty is increased by a slight failure of eyesight. But the cardinal still sees well enough to read his daily paper. Salmon in Alaska. The salmon fishery of Alaska is ex-

tending rapidly. In 1883 the number of cases packed was 36,000; last year, 439,-283, and this year it will be over 1,000,-000. The fish is much smaller than the Columbia River salmon, ranging from five to forty pounds, but of excellent An Immense Baby.

Mrs. Ole Olesen, of Detroit, a Swedsh woman, is the proud mother of a bouncing boy only one year old, who weighs 150 pounds. A dime museum manager offered \$100 per week for the privilege of exhibiting the child, but the mother refused to listen to him.

Scared the Mule to Death. A farmer near Parkersburg, W. Va. claims that one of his mules was scareg to death by lightning. The lightnind knocked down a shed under which the mule was standing, and the animal started to run and kept it up until it dropped down dead.

FINISH OF THE PLUMBERS STRIKE

Little Doing Among the Unions-Picnics and Meetings Announced-General Notes of Interest to the Laborers of the City.

Hands That Toil. The plumbers' strike, after dragging along for nearly three months, was brought to a termination last Monday by the surrender of the strikers. It was not a case of starve out, as the strikers still had sufficient backing to keep them afloat a while longer, but too many non-union men, perfectly willing to work, flocked into the city, and the bosses were able to cover nearly all the work placed into their hands without the strikers' assistance. The last stand taken by the journeymen was to demand that the non-union men employed in the shops should be journeymen was to demand that the non-union men employed in the shops should be discharged, but this the masters re-fused to do, as they had contracted with the men for at least a year's work. The journeymen fought for this point for a week and then succumbed altogether, and gave up the struggle it being evident that they could not win. The men have been busy looking for work this week and many of them of gone back to the shops of their former employers, but others have not been so fortunate and are still without work. Many of the man will be compelled to leave the city. to leave the city.

Everything is swimming along harmoniously with the cigar makers again. The manufacturers have discontinued the use of the red label which they had arbitrarily adopted and gone back to the blue label. The latter label is indorsed and recognized all over the United States by the union, and they claim that the red conflicted with the all over the United States by the union, and they claim that the red conflicted with the one of their choice, in fact, was nothing more nor less than a boycot upon it. The red lable, it will be remembered, was gotten up by the local manufacturers, and they undertook to foist it upon the trade. The decisive opposition of the union, however, has finally induced them to call it off and bereafter the blue label is all that will be hereafter the blue label is all that will be used-in fact is the only label the labor element will recognize.

J. J. McGuire, the president of the car-penters union of the United States, will probably be in Omaha during the month of September. McGuire is an eloquent speaker and his presence in Omaha would add new vigor to the aiready prosperous order of the carpenters in Omaha. A reception will be tendered him, and probably the opportunity afforded for listening to some of his wise and interesting talks.

The labor unions of the city are said to be contemplating a union excursion to Caldwell park, near Lincoln, during the latter part of this month. A special train will be run over the Union Pacific, and every arrangement made toward insuring a good time. It is estimated that there will be at least six conch leads attend the records. couch loads attend the excusion. The attention of the coopers is called to the fact that there will be a meeting of local union No. 1, at Kessler's hall, 1214 South

Thirteenth street, at 8 o'clock p. m. to-mor-row. The president makes the urgent re-quest that all the members attend. There is nothing new in the painters' and plumbers' unions beyond the fact that all are busily employed at fair wages.

The resolution of the council that all the work upon the new city hall should be done by local union labor, was introduced at the request and petition of the workingmen of the city, and they feel more than pleased at

Milkman and Prince.

A generation ago-some thirty odd years-when I was a freshman in Burington college, I used to hear on my visits to Trenton a grist of queer stories about Prince Murat, who once drove a milk wagon in that town, and was refused in marriage by a score of Trenton belles, says a writer in the Philadelphia Record. None of the latter dreamed that the seedy young farmermilkman would ever be restored as a Prince of the Empire, and the people from whom he had borrowed money never dreamed of being repaid. Times are changed, and perhaps some impoverished old women still survive at Trenton who now wish they had married the milkman, whose son, Prince Murat, is now thought to be a brilliant catch for Miss Gwendoline Caldwell, of this city. The Murat legions in Trenton might be Turn out Monday. You can buy summer goods cheap. 75 pieces fancy stripe and mixed beiges, worth 15c to
